

# Hello, Welcome to ISR Cajun Country!

We would love to provide you with more information about ISR Self-Rescue™ swimming lessons. ISR Self-Rescue™ swimming skills can and do save lives, as well as set your child up for a lifetime of competence and confidence in and around the water.

Our **Swim Lessons** are for children 6 months to 6 years with all **one-on-one instruction**. Lessons are conducted **5 days a week**. Your child will **attend daily** at the **same time** for a **maximum 10 minutes a day**.

ISR Self-Rescue™ skills can and do save lives. However, the number one defense against drowning of young children is effective supervision. Your child is not the only one who learns during lessons. Part of ISR's comprehensive program involves education about specific ways you can protect your children from water hazards. ISR Survival Swimming techniques are an integral part of your families drowning prevention program.

Catherine Dudick, MD, makes an important distinction between swimming lessons, swimming ability, and survival swimming ability. "Until about three years of age, children aren't able to do a crawl stroke. Learning self-rescue techniques can buy valuable time for very small children in the event of a water emergency."

## ONE-ON-ONE, PERSONALIZED INSTRUCTION

ISR lessons are one-on-one and customized to the developmental level of each child.

### CHILDREN 6 MONTHS TO 1 YEARS OLD:

ISR requires children to be at least 6 months old and be able to sit up independently in order for the registration process to be completed. For ISR purposes, sitting up independently means getting into a sitting position without assistance and then maintaining the sitting position without assistance for at least one minute. This milestone indicates that a child has the core strength necessary to make the rotational movements required for ISR lessons.

6 months to 12 months learn to "Rollback to Float." Rollback to Float Lessons teach your baby if ever face down in the water to hold their breath underwater, to roll onto their back to a floating position, while in that position on their back, rest while breathing in a safe manner till help arrives. This skill set takes about 6 weeks to accomplish; however, since lessons are taught according to your child's developmental readiness; sometimes 7 weeks are needed.

### CHILDREN 1 YEAR TO ABOUT 2 YEARS OLD:

Children who can walk, learn to "Swim-Rollback to Float." Swim-Rollback to Float Lessons teach, your baby to hold their breath under water, swim with their head down and eyes open a short distance and then independently roll onto their back and float (which is what they just learned in their Rollback to Float Lesson, if taken). While they are on their back in a floating position, they breathe safely and rest till help arrives. This skill set takes between 6 weeks to accomplish; however, there is a possibility to finish lessons sooner depending on skill level and the instructor's discretion.

## CHILDREN APPROXIMATELY 2 YEARS OLD:

Children who can walk, learn "Swim-Float-Swim." Swim-Float-Swim Lessons teach, your child utilizes previously taught skills which are to hold their breath under water, swim with their head down and eyes open a short distance and then independently roll onto their back and float (the previous skills encompass what they learned in their Rollback to Float Lesson then Swim-Roll Back to Float, if taken). While they are on their back in a floating position, they breathe safely and rest, flip back over to the swim position and resume the sequence again and again till they reach the side of the pool or can crawl out to safety. This skill set takes between 6 weeks to accomplish; however, since lessons are taught according to your child's developmental readiness; sometimes 7 weeks are needed.

Since statistics show that 86% of all children who drown are fully clothed at the time, during the final week of lessons, while under the watchful eye of an instructor, each of our students has the opportunity to practice their ISR Self-Rescue skills in both their summer and winter clothes.
